

# ENRICHMENT AT TESTWOOD

## High Attaining Students: University of Oxford

All students who are part of our High Attaining Students programme are also enrolled into the INSPIRE programme with St John's College, University of Oxford from Year 9.

This involves a weekly enrichment session with Miss Richbell and other specialist teachers to work on a range of enrichment topics such as Investigating Black Holes, Viking Culture and even Music Technology.

We also take groups of students to Oxford to experience what it is like to be a student there.
