

# ENRICHMENT AT TESTWOOD

## University of Southampton & St John's College, Oxford

At Testwood School we pride ourselves with our links to Higher Education Providers. We work closely with the University of Southampton and take a group of students from each year group to visit Highfield campus every year.

We also are part of the INSPIRE programme at St John's College, University of Oxford and we take a group of Y10 students to visit every year.

All of these visits are free and for students who have been identified as being High Attaining Students by staff.
