

ENRICHMENT AT TESTWOOD

Venice, Italy 2022

Year 10 and 11 Photography and Fine Art students travelled from Testwood to Venice in Italy for 4 days of Italian culture, arts and architecture. Students visited the Doges Palace, St Mark's Square and Rialto and the famous fish market. Students enjoyed a 3 Island tour to Murano, Burano and Torcello where they experienced the glass factories, colourful houses and ruins of the original settlement in the Venice Lagoon.

Our students were fantastic throughout the whole of the trip and made the teachers very proud. We hope they gained a lot from the experience and have developed an appreciation for culture and the Italian arts and a thirst for further adventures around the world.

"The Venice Trip was an amazing opportunity and experience. The trip gave us the chance to visit many museums, islands and explore beautiful Venice. I am so grateful I got the chance to go as it was an experience of a lifetime." - Year 11 Fine Art Student
