

ENRICHMENT AT TESTWOOD

PARIS March 2024

The MFL department organised a weekend trip to Paris in order to offer all students the opportunity to develop their 'real life' use of the language studied in lessons, as well as gain invaluable cultural insights into the French capital.

The first day took us around the city, and we got to visit to the most iconic landmarks as well as see the preparations for the Olympics. The students then got the opportunity to visit Disneyland Paris on the second day and reflect on how by choosing to study GCSE French, they may explore opportunities for international careers in the future, as well as use their French for fun!
